

**Ferreira Construction Co., Inc.** is soliciting bid proposals from qualified firms certified as MBE, WBE, VOB, SBE or SDVOB for the **PSEG Civil Services to Convert Woodlynne and State Street (previously Cooper) Substation to 69kV, Woodlynne ES2 FM, and State Street ES2 FM Projects in Camden, NJ**

## **Description of Project:**

The building of a new infrastructure to house new transmission and distribution equipment at Woodlynne Substation located at 1372 Fairview Street, Camden, NJ, 08102 and at New State Street Substation located at 1130 Cooper Street, Camden, NJ, 08102. At New State Street Substation, the property will house the buildout of the new 69kV transmission with an In-Service of 6/1/22. The new property will also accommodate the new 4kV distribution upgrade. There are three site locations located in Camden: The substation locations are Old State Street Station (demo only), New State Street Station, and Woodlynn Station

## **Potential Bidding Opportunities:**

- Asbestos/Lead Abatement
- Asphalt Paving
- CPM Scheduler
- Concrete Curb and Sidewalk
